Professional Experience

OMG23 / OMD Entertainment, Omnicom Media Group

Burbank, CA | 2016–2026

Campaign Manager to Group Director, Ad Operations, Marketing Science &
Creative Management

- Led cross-functional teams of 60+ across creative management, marketing operations, media, analytics, technology, and campaign operations.
- Aligned creative, marketing, media, analytics, technology, and operations teams supporting theatrical and streaming entertainment campaigns.
- Led campaign operations across Disney Studios Theatrical and Disney Streaming/DSS, supporting theatrical and streaming film campaigns across Pixar, Lucasfilm, Marvel, 20th Century Studios, Searchlight Pictures, Disney+, and franchise/IP priorities.
- Owned workflow governance, milestones, QA, measurement readiness, vendor integrations, and scalable execution standards for premium entertainment campaigns.
- Introduced scalable workflows, governance practices, and execution standards across marketing, technology, analytics, and creative teams.
- Directed operational execution for multimillion-dollar premium entertainment campaigns across theatrical releases, streaming launches, and franchise/IP priorities.
- Advanced from Campaign Manager to Group Director while leading campaign operations across Disney Studios Theatrical and Disney Streaming/DSS.
- Primary work focused on theatrical and streaming film campaign operations across Disney's Studios, franchise/IP, and streaming ecosystem.

Selected Projects

CampaignOS

Founder & Product Lead | 2026–Present

- Designed and developed an AI-powered operations platform that standardizes workflow governance, automates quality assurance, reduces operational risk, and enables cross-functional teams to execute consistently at scale.
- Built schema-driven workflows, validation frameworks, and operational reporting that reduce manual effort while improving consistency, visibility, and decision-making.
- Applied nearly two decades of enterprise entertainment operations experience to solve recurring organizational challenges through AI, automation, and product thinking.

Substack Writer

Writer | 2026–Present

- Publishes essays exploring creativity, technology, music, AI, grief, and life after corporate leadership through an editorial lens.
- Develops personal voice and public thought leadership.

OMG23 Multiverse Newsletter

Creator & Managing Editor | 2023–2026

- Internal culture publication spanning creativity, innovation, music, and emerging media.
- Developed editorial voice.
- Built recurring content strategy.
- Created contributor framework.
